

Why We Need a HymnCharts Subscription

We know your congregation loves traditional hymns but you've decided to move to a contemporary worship style.

Instruments for contemporary worship (keyboards, guitars and drums) can't play hymns from hymnals designed for piano and organ.

HymnCharts.com is a website that offers traditional hymns arranged for contemporary instruments:

>Unlimited access to our online sheet music library. Download over 3000 pages of music for choir, praise team and other instruments and make as many copies as you want for every vocalist and instrumentalist on your worship team. Over 90 hymns available with a new arrangement each month.

>Because we offer our music as Internet downloads, we can help your church save an enormous amount of money by not having to pay for pre-printed music books.

>30 day money-back guarantee: if you're not completely delighted with HymnCharts.com, contact us within 30 days and we'll completely and promptly refund your money. We know your ministry funds are precious and we don't want you to be stuck with a purchase you can't use.

>Thousands of churches have successfully used our contemporary hymn arrangements to create a blended worship experience for all ages. One customer writes:

"This HymnCharts subscription is the answer to our prayers, literally. We had made an enormous hole in our small music budget, buying multiple copies of majorly expensive arrangement books and still ending up with a fair percentage of those songs that weren't quite right for our group.

"When I found your site and saw the arrangements, I knew this was absolutely what we'd been looking for. The sound is wonderful; it somehow spans the generational preferences, gets the younger ones moving and praising, but comforts the older ears with familiar words and melody."

Nancy Ramsden, Blissfield, MI
